

Kenna Taddese

Software Engineer

Web developer and Freelancer

About Me

A Jr. Software Engineer at the Commercial Bank of Ethiopia, I am specifically aspiring to the ever-evolving field of Frontend development. With over 2 years of professional experience as a full-time developer, remote Frontend Developer, and Freelancer on Upwork, I have passed through the whole software development life cycle on numerous projects. This experience has equipped me with a deep understanding of core software development technologies and has honed my problem-solving skills.
